

RAMSES EVERAERT

GAME DEVELOPER

LOCHRISTI, EAST FLANDERS, BELGIUM

EDUCATION

AUDIO VISUAL DESIGN - ARTEVELDE HOGESCHOOL (2018-2021)

- Film and Montage
- Visual Story Telling

DAE - GAME DEVELOPMENT - HOWEST (2021 - PRESENT)

- Gameplay Programming
- Engine Programming
- Graphics Programming

GAME PROJECTS

1. The flintstones Sega (clone) in C++

This project allowed me to apply my knowledge to a practical context. With a basic framework, I had to finish the engine and use it to recreate this game, made for Sega Genesis, in C++.

- **challenges:** parallax scrolling, ledge grabbing, complex 2D animations, and more realistic physics
- **IDE:** Visual Studio 2019
- **Engine:** custom framework from school

2. Interactive Puzzle Game (Unreal Engine 5, C++)

As group project we were assigned to create a 3D puzzle-based recovery game using Leap Motion technology and Leia 3D technology for HITLab and Barco.

- **My role:** Gameplay and game mechanics:
- **IDE:** Visual Studio 2020
- **Engine:** Unreal Engine 5

3. Zombie AI Behavior System (c++, Custom Framework)

- Developed AI behaviors for a zombie-themed game, showcasing decision-making and pathfinding.

WORKING EXPERIENCE

1. Video Production Intern at Mediaren (Feb 2021 - Jun 2021)

Produced and edited video content using Adobe Premiere Pro and After Effects. Designed visuals and graphics using Photoshop and Illustrator

2. Server at Colmar Restaurants (Aug 2019 - Jan 2020)

3. Canteen Staff at WVG Beervelde (Jul 2018 - Aug 2018)

4. Order Picker at Bleckmann (Jul 2017)

INTERESTS

- Storytelling in games, films, and animation
- Watching movies and playing video games
- Playing piano
- Calisthenics
- Badminton

SKILLS

Primary

- C++
- C#
- Unreal Engine Blueprinting

Secondary

- HTML
- CSS
- Javascript

VERSION CONTROLS

- Github
- Perforce

GAME ENGINES

- Unity
- Unreal Engine

PROFILE

- **Nationality:** Belgium
- **Drivers license:** B
